

Data Collection and Preprocessing Phase

Date	15 aug 2026
Team ID	xxxxxx
Project Title	India's Agricultural Crop Production Analysis Using Tableau
Maximum Marks	2 Marks

Data Collection Plan & Raw Data Sources Identification Template

Elevate your data strategy with the Data Collection plan and the Raw Data Sources report, ensuring meticulous data curation and integrity for informed decision-making in every analysis and decision-making endeavor.

Data Collection Plan Template

Section	Description
Project Overview	The project focuses on analyzing India's agricultural crop production data. The main objective is to understand crop-wise and region-wise production trends. Tableau will be used to analyze and visualize the data. The final dashboard will present the findings in a simple and interactive way

Data Collection Plan	Agricultural crop production data will be collected for analysis. The required information includes crop, year, state/region and production values. The collected data will be checked for completeness and accuracy. The data will then be prepared for further processing and visualization.
Raw Data Sources Identified	The raw dataset will contain information related to agricultural crop production in India. Important fields such as crop, location, year and production will be identified. The source data will be reviewed before starting the cleaning process. The identified dataset will be used as the base for the Tableau analysis.
